**Subject:** Microsoft Settlement

Gentlemen and Ladies,

I beleive Microsoft should be allowed to abide by the terms of the settlement, and any further action would be designed to destroy the company, doing great harm not only to the US econmy but perhaps the world's. The only organizations to be stisfied would be those opposing the existence of Microsoft. They, of course, were no better at wanting to do what Microsoft has accomplished, but simply were not as successful.

Reginald R. Diodati

Troy, PA
